

SQUAMISH VALLEY ROD AND GUN CLUB

Presidents Report Eight

February 2009

Only four members attended the January meeting

Discussion with Kiewit and Ministry of Highways on compensation work should be completed by February.

Range Use

Shooters continue doing a better job of cleaning up their casings, targets and stands after use. Disposal of garbage needs to be addressed

CN and the RCMP are utilizing our facilities on an ongoing basis as are the Biathlon team. New daily Range rental rates to be confirmed and a letter sent to all agencies.

Any member who has keys to any club doors, gates or lock ups, please advise me as I need this for the Club insurance policy.

VOLUNTEERS REQUIRED

HOW DO CLUB MEMBERS EXPECT CLUB FACILITIES TO BE BUILT OR MAINTAINED IF NO MEMBERS VOLUNTEER TIME FOR WORK PARTIES! Perhaps we should triple membership fees and hire out any work to be done!

The floor repair in the indoor range is going to require a work party for about a half day any volunteers, please call. Would like to do it in January

Once the Kiewit remediation plan is agreed to, work parties will be required to work with Kiewit in cleaning up and building new facilities such as the trap range.

CLUB FACILITY SCHEDULE

February and March are posted. Please advise of any errors or additions

Cheers

Mike
